## **8. PLANNING BUSINESS**

### **8.1 Planning Appeal APP/G2245/D/3205825**

Construction of a conservatory. **Elphinstone Honeypot Lane Edenbridge KENT TN8 6QJ**

Ref. No: 18/00560/HOUSE

An appeal has been made to the Secretary of State against SDC's refusal of planning permission for the above. Previously members said:

*Members object to this application in the Green Belt because they suspect the cumulative increase in size exceeds the 50% rule. The house has been extended before and members wish the Officer to check the total extension areas haven't exceeded the rule.*

These comments have been forwarded, but there is no opportunity to submit further ones.

### **8.2 92 High Street Edenbridge KENT TN8 5AR – 18/01321/LBCALT**

Concerns were raised with Planning Enforcement at SDC about the way works are being carried out on Tanyard House, a 2\* listed building. However, the Enforcement Officer is satisfied that they are being carried out lawfully.

### **8.3 Community assets**

SDC has confirmed that The Swan Inn has now been listed as a Community Asset, and the listings for St Paulinus Hall and the old library have been renewed for a further five years.

### **8.4 Street naming and numbering – High Street/Croft Lane**

SDC has advised that 29A, 29B, 29C, 33A and 33B High Street have been changed to 4, 6, 8, 12 and 10 Croft Lane respectively.

### **8.5 Street naming and numbering – site of Westerham House**

SDC has advised that the name of a new street on the former site, comprising 21 terraced dwellings, is Caxton Close and Litho House is the name for a block of 15 flats.

## **9. TRANSPORT BUSINESS**

### **9.1 Road issues**

#### **9.1.1 Road closure for Remembrance Day Parade**

The road closure for the Remembrance Day Parade on Sunday 11 November has been granted.

#### **9.1.2 Temporary High Street road closures**

Kent Highways have had several road closures in the High Street – unfortunately, some of the resurfacing was delayed because of inconsiderate parking by a number of residents. Most of the work has now been completed in the 20mph zone.

## 9.2 Rail issues

### 9.2.1 Access for All fund

The Government has made up to £300m available to extend the Access for All programme (letter attached) and to seek nominations for the next tranche of station projects. Selected stations will receive an accessible route into the station and to and between each platform. Nominated stations will be assessed primarily against similar criteria to those used previously. These are:

- Footfall, using figures published by the Office of Rail and Road
- Stations where there is a particularly high incidence of disability in the area, based on Census data
- A particular local circumstance such as the proximity of hospitals, a school for disabled children or a military rehabilitation centre for example, or stations with relatively high numbers of interchange passengers
- The availability of third party funding
- Stations that would help to fill “gaps” in accessibility on the network

Priority will be given to stations that currently have no access to and between platforms over stations where this is possible, even if the existing route is not ideal. More information is available on

<https://www.networkrail.co.uk/communities/passengers/station-improvements/access-for-all/>

Nominations need to be received by Friday 16 November 2018 and the successful stations will be announced in April 2019.

**Do members wish to propose the two Edenbridge stations for consideration by the Department for Transport?**

### 9.2.2 Edenbridge station name

The owner of a local taxi firm has advised the Council that for a number of years there has been confusion over station names when visitors arrive by train, and many people don't realise that Edenbridge station is not in the town. He requested an approach be made to Network Rail proposing a change of name – in the past ‘Edenbridge North’ has been a suggestion. The Community Rail Partnership Officer has advised that a formal change may be unlikely, because of the issue of changing all the timetables/websites/etc, but it may be possible to have double signage to avoid confusion, which could also assist emergency services if they were ever called to the station. The proposal has been put forward to GTR by Sussex Community Rail Partnership.

**Do members wish to support the proposal should it be feasible, and what suggestions for a name do they have?**

9.3 Aviation issues – none

9.4 Highways report – hard copy available with the plans

Dear XXXX

## **ACCESS FOR ALL IN CP6: STATION NOMINATION PROCESS**

I am writing to confirm the Government has made up to £300m available to extend the Access for All programme across Control Period 6 and to seek your nominations for the next tranche of station projects.

Selected stations will receive an accessible route into the station and to and between each platform. Nominated stations will be assessed primarily against similar criteria to those used in previous Control Periods. These are:

- Footfall, using figures published by the Office of Rail and Road
- Stations where there is a particularly high incidence of disability in the area, based on Census data
- A particular local circumstance such as the proximity of hospitals, a school for disabled children or a military rehabilitation centre for example, or stations with relatively high numbers of interchange passengers
- The availability of third party funding
- Stations that would help to fill "gaps" in accessibility on the network

There is no limit on the number of stations that can be nominated but you should rank them in priority order and provide the reasoning for this ranking. We also expect that the views of local authorities, Members of Parliament, local disability groups and community rail groups will have been sought. Well evidenced nominations will be given due weight during the selection process.

It should be noted that other factors will be given consideration before the final selection is made including the need to ensure a fair geographical spread across the country and the credibility of projects being delivered within the Control Period (CP6).

You may also wish to consider synergies with other projects or programmes. However, where stations are part of major infrastructure programmes or a renewal is planned that would require compliance with the UK and EU accessibility standards set out in <https://www.gov.uk/government/publications/accessible-railway-stations-design-standards> it is unlikely that Access for All funding will be made available. Priority will be given to stations that currently have no access to and between platforms over stations where this is possible, even if the existing route is not ideal.

Nominations should be sent direct to [AccessforAllNominations@dft.gov.uk](mailto:AccessforAllNominations@dft.gov.uk) using the attached nomination form.

Nominations should be received by Friday 16 November 2018 and we intend to announce the successful stations in April 2019.

Please note that any stations that were deferred as a result of the Hendy review do not need to be re-submitted as they will all be included in the programme automatically.

If you have any queries about this letter please do not hesitate to contact me.

Yours sincerely,

NEIL PRIEST
